# STAGE + LIVE AUDIENCE PORTRAIT

Keynote, roaming photographer and live image on main screen

01 / STAGE

## ISOMETRIC SETUP

ONE SPEAKER / PHOTOGRAPHER - ONE PA WITH BLACK FLAG

## HOW THE ACTIVATION WORKS

**01 Photographer enters front-of-stage area**

The keynote speaker is also the photographer.
A camera is worn on a neck strap.

**02 Subject + PA at the first row**

Guest stands ahead of row one, near the stage.
PA holds a portable black flag as backdrop.

**03 Tethered live portrait**

Camera remains connected to a digitech laptop.
Dramatic black-background portrait goes onscreen.

## DEAR WORLD BRINGS

Camera and tether cable; photographer / speaker; PA and black flag

Portable photo lighting; laptop / capture equipment as arranged

All Dear World-specific camera and lighting equipment

## VENUE / AV PROVIDES

Wireless lavalier microphone, slide clicker, audio to PA

HDMI / video feed from digitech laptop to main screen (16:9)

Front-of-stage space and approved cable route; power as needed

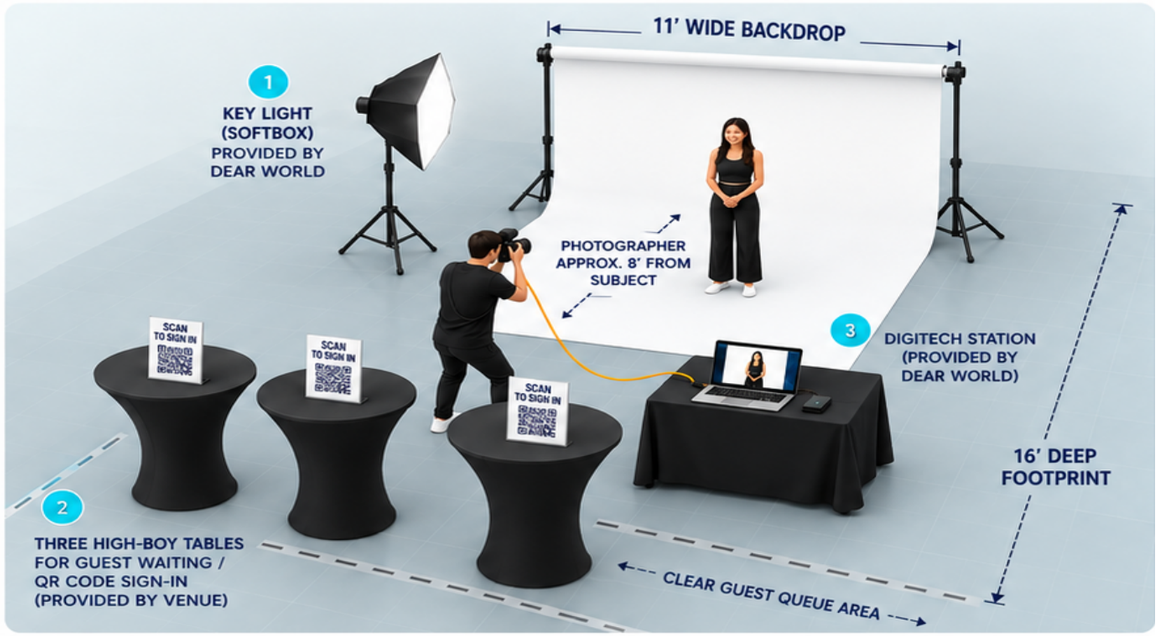

# FOYER / CONVENTION / PARTY-SPACE

Portable portrait activation for lobby, reception and convention floor

## ISOMETRIC SETUP

11 FT WIDE - 16 FT DEEP - PHOTOGRAPHER APPROX. 8 FT FROM SUBJECT

## HOW THE ACTIVATION WORKS

- **01 Guest arrival + QR sign-in**

  Three high-boy tables located behind photographer provide waiting/check-in area.

- **02 Portrait capture**

  Subject stands at white backdrop. Photographer works approx. 8 ft back.

- **03 Tethered image review**

  Camera connects to digitech laptop for capture, preview, and backup.

## DEAR WORLD BRINGS

Key light / softbox; camera + tether cable

Digitech station (laptop, software and accessories)

White backdrop and QR tabletop sign-in signs

## VENUE / AV PROVIDES

Clear 11 ft wide x 16 ft deep activation footprint

Three high-boy tables behind photographer

One nearby dedicated power drop (110 V / 20 A)

Unobstructed entrance, guest flow and safe cable route
